

# Y12 Photography Summer Holiday Homework

## HWK 1: Visit two galleries and document

Over the course of the Summer holidays you will need to visit two galleries – it is important that you research them before hand to ensure that there is artwork / photography that is of interest to you. It is absolutely fine to visit the galleries in groups from your class but you must then present your visit independently and **creatively! (to be discussed in class)**

## HWK 2:

- Create a moodboard with 8+ photographers, that show a range of different approaches to portraiture. Ensure that this is busy and annotated – describing styles, photographic techniques and any ideas that you have
- Choose 2 of these photographers and respond to them with your own photoshoot (20+ photos for each). Present these as a contact sheet and a gallery page of your best photos.

**You will present both tasks to the group first lesson back**
